

# Interviewing at Data Science Dojo

Navigate a successful interview using  
this helpful guide

# What's Inside

## A little bit about this guide

This interview guide is intended to serve as a tool to help you prepare for your interview effectively. It provides general tips, potential questions, and strategies to enhance your performance during the interview process.

This guide is not intended to encourage deceptive practices, misrepresentation, or any form of dishonesty during the interview. Falsifying information or using unethical strategies can have serious consequences and may jeopardize your candidacy.

While the guide provides general advice, every interview is unique. Tailor the information to your own experiences, skills, and the specific requirements of the position you are interviewing for.

# Who are we?

## ➤ About Us

We are a training and consultancy company aimed at making data science accessible to everyone. Join us on our mission to democratize education for everyone and engage in meaningful work. Working with us will be equal parts challenging and rewarding, so buckle up for the adventure!

## ➤ Mission

Our mission is to develop a culture where data science is used to support the community. We want to make data science easier, more practical, and accessible to everyone.

## ➤ Vision

Our vision is a community of mentors, students, and professionals committed to unleashing the potential of data science together. Help us achieve this by becoming a part of this diverse, talented team.

# It is all about culture

## ➤ Why culture matters?

Culture eats strategy for breakfast.

Our culture transcends mere perks and privileges. We're dedicated to nurturing an environment where our team members have the opportunity to evolve into the best versions of themselves through continuous learning. We are on a mission to empower each individual to reach their full potential.

## ➤ What to expect?

We encourage open communication and provide mentoring to build a world-class team that achieves greatness.

Our Leadership Principles guide us in our work everyday. (Read up on these before your interview to ace it!)

## ➤ Our Values

Make a Positive Impact

Celebrate Diversity

Enable Growth

Pursue Excellence

Bias for Action

People-centric

# Cultural Fit

Because culture is so important for us, we also urge you to think, what is important for you?

**Initiative and Ownership**

**Freedom and Accountability**

**Communication and Trust**

**Passion and People Focus**

Think about your values and culture you would want to be representative of

Introspect and deeply understand your strengths and weaknesses.

Read up on our core values and our leadership principles to understand our culture more.
